

ZC 721 X

INTRO

Flap Disc Cloth
 Grit Format: Hybrid
 Available Grit Range: P36 ~ P120

CONSTRUCTION

Cloth Type: Polyester and Cotton Hybrid
 Bonding: Resin over Resin
 Grain Type: Zirconia Alumina Grain Hybrid

Converted Materials: Flap Discs
 Maximum Width: 1650mm

PRODUCTS ADVANTAGE

- Long lasting chemically treated zirconia grains
- Works even better on higher temperatures and pressure points
- Last longest with the hybrid grain structure

APPLICATION

- Can grind on edge surfaces and thick welds that apply single point high pressures
- Preferred machinery is high watt machines working with high RPM
- Better works on edge grinding
- Metal and stainless steel edges weld removal and deburring

MOST COMMON GRIT CONSUMPTION

P36	P40	P50	P60	P80	P100	P120
